ABSTRACT. Please write down the abstract of your paper here....

Keywords: Please write down the keywords of your paper here, such as, Intelligent information, System control

1. Introduction. Please write down the Introduction of your paper here....

2. Problem Statement and Preliminaries. Please write down your section. When you cite some references, please give numbers, such as, ... In the work of [1-3,5], the problem of... For more results on this topic, we refer readers to [1,4,5] and the references therein....

Examples for writing definition, lemma, theorem, corollary, example, remark.

Definition 2.1. System (1) is stable if and only if...

Lemma 2.1. If system (1) is stable, then...

Theorem 2.1. Consider system (1) with the control law...

Proof: Let...

Corollary 2.1. If there is no uncertainty in system (1), i.e., △A = 0, then...

Remark 2.1. It should be noted that the result in Theorem 2.1...

Example 2.1. Let us consider the following example...

\[
\begin{align*}
\dot{y} x(t) &= Ax(t) + Bu(t) + B_1w(t) \\
y(t) &= Cx(t) + Du(t) + D_1w(t)
\end{align*}
\] (1)
